16th Annual
IMAGES&PERCEPTIONS
DIVERSITY
CONFERENCE
EMBRACING DIVERSITY, EMPOWERING COMMUNITIES

For the past 15 years, the focus of this unique diversity and educational conference has concentrated on the images and perceptions of diverse groups in media, schools, corporations, government, and in all aspects of integration into the fabric of our Nation. The 16th Annual Images and Perceptions Diversity Conference, has once again partnered with the Arab American, African American, Hispanic American, Asian American, Jewish American, Disabilities and LGBTQ community to collectively empower our communities by embracing diversity.

The array of dynamic *Conference Presenters and Panel Discussions* through the years have provided effective solution building tools to create positive changes that drive diversity and inclusion within organizations, law enforcement agencies, educational institutions, social and public entities as well as a driving message that addresses our own personal perspective. This year more than ever we are challenged to preserve the sanctity of our values as a country and a nation. The bridges of divide have been fueled by the rhetoric of our political enclave but as a nation, we are strong and resilient. The 16th Annual Images and Perceptions Diversity Conference will address these issues to strengthen the cornerstone of understanding and to provide the necessary tools to face the continued challenges ahead in Healthcare, education, law enforcement and corporate America. The Conference serves as a forum to create bridges of acceptance, dialogue, and greater understanding; while exploring the challenges and triumphs that ultimately bring us together as communities and influence us as Americans.
